## Захранващ блок Cooler Master MWE 650 Bronze - V2 230V

Модел : CM-PS-MPE-6501-ACABW-BEU

Захранващ блок Cooler Master MWE 650 Bronze - V2 230V

Захранващ блок Cooler Master MWE 650 Bronze - V2 230V

The MWE Bronze V2 offers 80 PLUS Bronze certification, guaranteeing an average efficiency of 88% at typical load. The DC-to-DC + LLC circuit design allows the unit to convert power from the single +12V rail reliably, efficiently, and safely for a better overall user experience. The thermally sensitive HDB fan cools based on temperature, adjusting constantly as the system's needs change. Not only does this waste less power but it also creates a quieter overall user experience by not running the fan at maximum noise level when not needed. For a great mid-tier computing experience, choose the MWE Bronze V2.

- Single +12V Rail : All power comes from a single +12V source, ensuring consistent output through all connected cables.
- 120mm HDB Fan : The 120mm HDB fan employs responsive fanspeed control, limiting noise to specific cooling requirements during use.
- DC-to-DC Technology : The DC-to-DC + LLC circuit design offers reliable, stable output to all connected components.
- Flat Black Cables : The flat cables take up less space and are easier to manipulate within the chassis.
- 80 PLUS Bronze 230V EU Efficiency : This certification guarantees a typical efficiency of 88% under normal operating conditions.
- 5 Year Warranty : This unit comes with a standard limited manufacturing warranty of 5 years from the date of purchase.
